

How Much Could Your Business Save?

Save money off your business energy bills. U-GET Consultancy Services process will save you the time, effort & money by sourcing the best energy rates.

U-GET will check your current energy bill setup. If you are in an existing contract, we will diarise your renewal & termination dates for future action. If you are not in a contract or due for renewal, we will obtain new competitive quotes.

Case study savings

We recently reviewed the energy bills of *Tiger Stores*, a rapidly growing retail chain. Not being in a contract, their rates were over 40% higher than they should have been.

We switched all their contracts, saving over £20,000

Typical savings:

Business Type	Annual Spend	Savings	Savings (%)
Restaurant	£4600	£700	15
Flats	£12,500	£4,000	32
Retail	£43,000	£18,000	42
School	£16,000	£3,000	19
Garage	£3,151	£1,281	40
DataCentre	£23,000	£2,286	10

Could your business save ££'s

We all want to save money on utilities. Often this means doing a bit of research. However, for certain products or services, many people simply ignore this!

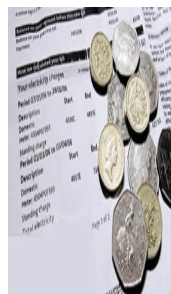

Your overheads are one such example that is often neglected. You may have no idea if you are paying too much or if you are on the best tariff.

Help is at hand

U-GET provides a 'reverse auction' service.

1. We check your energy bill to understand your current setup.
2. Attain new quotes from a variety of suppliers in a reverse bidding auction.
3. Document our findings for you to review.
4. We will setup the new contract for you.

How much will it cost me?

We charge a flat-rate admin fee + a percentage of savings we make when compared to your renewal offer.

Although we charge for our service, the annual expense will be lower than the broker option. By allowing U-GET to review your energy bill, you really have nothing to lose, yet potential savings to make.

Our Services
